

Free car seats

Safe Kids Oakland County Car Seat Program

**HENRY
FORD
HEALTH**

To qualify for a car seat:

(Per the State of Michigan which grants the seats):

Parents and caregivers must show either a referral form from a caseworker providing social services indicating the need for a free car seat; or they must show the technician proof of current enrollment in a qualifying program for the child receiving the seat at the time of installation.

Caregivers must also sign and submit a qualifying program cover memo to the technician during the seat check. You do not have to be an Oakland County resident to receive a seat.

Qualifying programs include:

- Women, Infants, and Children (WIC)
- Partnership. Accountability. Training. Hope. (PATH) cash assistance
- Refugee Assistance Program
- Children's Special Health Care Services
- MI Child
- Head Start or Great Start
- Medicaid
- Children with Special Needs Fund
- Maternal Infant Health Provider (MIHP) services or other home visit program
- Native American Outreach Program

- Family Independence Programs
- Social Security/Disability
- Bridge Card/food assistance
- Emergency replacement after fire, flood, or crash (crash/fire report required)
- Court referral or other court document
- Proof of child in foster care by foster parent or reunification plan

Caregivers must attend an in-person educational check station, by appointment only.

Please note, we do NOT distribute infant rear facing only (RFO) car seats. We do have convertible (rear to forward facing) car seats.

A child weighing between 5-65lbs will ride safely in a convertible car seat when installed correctly. We also have forward-facing combination seats, high back booster with harness, and big kid booster seats.

**Installation checks are also available on the same site to caregivers that already own or have purchased a car seat.*

To register and for more
information, visit henryford.com/calendar and search
