DISCUSSION & INSIGHTS

WEBINAR SUMMARY

This webinar will delve into evidence-based pharmacological treatment for depression and anxiety. The session will cover essential topics for providers across disciplines, providing insights into the evolving landscape of psychopharmacology. Participants will engage with practical strategies and current best practices aimed at enhancing patient care.

ABOUT THE SPEAKER

Dr. Frank is currently the Emeritus Chair of Psychiatry and Behavioral Health Services at Henry Ford Health System, transitioning from the chair in June 2024. She graduated from the College of Human Medicine at Michigan State University and completed her psychiatry residency at Massachusetts General Hospital. Dr. Frank is one of the principal authors of Zero Suicide Prevention. She is co-director of MI-Mind, an innovative CQI Blue Cross funded project designed to eliminate suicide in the State of Michigan. She currently serves on the Governor's Michigan Suicide Prevention Commission.
