Let's keep growing together

In a country faced with a national shortage of providers, Henry Ford Jackson Hospital's commitment to this community remains unwavering. We are fortunate to have a strong recruitment team and partnership with the Henry Ford Medical Group. Together, they empower our efforts to continually prepare for future staffing needs and promote patient access. Our efforts include attracting stellar specialists to maintain a strong Level 2 trauma center and promote patient access.

Recruiting specialists is a time-consuming process. We not only need to identify the most qualified candidates, but they must also be the right fit for our team. By "right fit," I mean we're seeking healthcare professionals who wholeheartedly embrace our vision and values, and who are as passionate about serving our community as we are. Over the past year, we've been pleased to welcome outstanding providers representing orthopedics, sports medicine, neurology, child behavioral health, obstetrics and gynecology, family medicine, and hospice. Patient access to care will increase as we continue to expand our team over time. Get to know the [providers serving our Central Market](#) or search our convenient [Find a Doctor feature](#).

In addition to specialists, our commitment to providing access to excellent healthcare requires a fully staffed care team. That's why we're focused on investing in the people of our community to create a local workforce pipeline. Thanks to the generous support of the [Al Glick Scholars Endowment Fund](#) we are able to offer financial assistance for education to champion the aspirations of local young people and adults and open doors to rewarding healthcare careers right here in Jackson. It was exciting to award our first round of scholarship recipients so they can start their education this fall.

The Al Glick Scholars Endowment Fund is an exciting philanthropic opportunity for you to support the healthcare career aspirations of local residents, improve the economic growth of the region, and ultimately, benefit Henry Ford Health, our patients and their families. Your philanthropic gifts strengthen our ability to expand our exceptional team and provide the high-quality care you and your family deserve. You'll become part of a beautiful full circle—we provide care to people rooted in our community who are then equipped through education to help us care for even more people.

[Consider giving to an area that means most to you.](#) Your support keeps us growing.

The greatness of a community is most accurately measured by the compassionate actions of its members. ~ Coretta Scott King
